JINANG VOHERA

Software Engineer

@ jinangsmiles17@gmail.com +91 8347785963 Linkedin

EXPERIENCE

Software Engineering Intern

Crest data Systems

Nov 2023 – Present

- Working on splunk premium application using python and reactjs
- Written and performed different type of testing like manual testing, automate testing using WDIO framework and smoke testing.

Software Engineering Intern

Carte Blanche Technologies

June 2023 – July 2023

- Creating an interactive dashboard to establish connectivity with IoT devices, allowing real-time data visualization and analysis.
- Designed and implementing Django's model-view-template (MVT) architecture to develop robust backend functionality for the interactive dashboard.

EDUCATION

B.Tech - Computer Science and Engineering

Institute of Technology, Nirma University, Ahmedabad

2020 – 2024

- PPI/CGPA: 7.74

PROJECTS

InterConnect X

Python | Django | REST | SOAP

Source Code

- A backend middleware application to power bi-directional integration between two separate systems supporting REST and SOAP communication with compatibility between them . This middle ware act as a bridge , enabling that two systems to communicate and exchange data seamlessly.
- Hackathon Winning project

Pdf Talker

Langchain | ollama

Source Code

- Setup a local LLM which let you communicate with your pdf and answer your queries accordingly, which take data security in consideration as the data doesn't leave the computer

TodoApplication

HTML | CSS | JS | Nodejs | MongoDB

Source Code

- The TODO List Application is a web-based task management tool that allows users to create, view, edit, and delete tasks.

Chat Application

Python

Source Code

- Developed a command line chat application using Python and socket programming to enable real-time communication between multiple users.

CODING PROFILES

- **Codeforces** : jinang17 (max-rating:1315)
- **Leetcode** : jinang17 (max-rating:1573)
- **Github** : jinang17
- **CodeChef** : jv17 (max-rating:1618)

ACHIEVEMENTS

- Achieved a respectable rank of 1138 in the Codejam Farewell round.
- Secured a global rank of 330 in the CodeChef December Cook Off
- Led a team to the finals and semi-finals in the Intra-College Coding Premiere League 1.0 and 2.0 respectively.
- Secured gold medal at fast mathematics using Vedic maths
- Attained a global rank of 4593 in the Google Kickstart 2022 competition.
- Placed as the runners-up in the HackNUthon 4.0, Athena.
- Actively participated in hackathons like Hackout, Mined, and contributed to open-source events like Hacktoberfest.

COURSEWORK

DSA | OOP | Graph Theory | Database Management System | Operating System | NLP | Software Engineering | Networking | Machine Learning | Cloud Computing

SKILLS

C++ | HTML CSS JS | Nodejs Express | Django | Python | Git | MongoDB | Reactjs | ThunderClient

INTERESTS

Mathematics | Cricket | Badminton | Table Tennis | Anime | Photography | Cooking
